Fog Blade Accessory

For JEM™ Glaciator™ Dynamic low-fog effect machine

APPLICATIONS

The Fog Blade is an extension of the Glaciator Ducting Kit, allowing covert precision low-fog to be channeled via a single 6" ducting hose discreetly under stage sets and drapery, hung overhead, or affixed under a floor. The fog blade is made of lightweight aluminum and powder coated in a matte black finish. The shallow, angled, industrial design, and diverter panels ensure smooth, uniform low-fog output. The Fog Blade has rubberized feet to protect delicate surfaces and a convenient carrying handle for ease of quick placement during scene changes. Additional hanging points are integrated to allow for overhead use of the fog blade to create dramatic waterfall type effects from up to 10 m. Up to three Fog Blades can be used with one JEM Glaciator Dynamic equipped with a Glaciator Ducting Kit.

TECHNICAL SPECIFICATIONS

Construction:	Black, steel
Connections:	150 mm (6 in.) OD inlet
Orientation:	Any

ORDER SPECIFICATIONS

P/N:	92625025
UPC:	688705001869
EAN:	5706681001866
Unit Dimensions (L x W x H):	603 x 418 x 236 mm (23.8 x 16.5 x 9.3 in.)
Packaged Dimensions (L x W x H):	695 x 515 x 350 mm (27.4 x 20.3 x 13.8 in.)
Weight, boxed/unboxed:	4.5/2.25 kg (9.9/5.1 lb.)

IN THE BOX

Fog Blade
Duct Clamp — worm-drive, hex screw, 150 mm (6 in.)
